PROFESSIONAL SUMMARY

I'm a content designer who listens like a researcher and advocates like a product partner. I have 7+ years in user experience, AI systems, and digital media with a STEM master's from USC. I've recently designed content frameworks for AI prompt systems including Remitly's cross-border money transfer app within ChatGPT. I work across user research, content design and localization. Now more than ever, AI needs the voice of content designers to build responsible, human-centered content systems. I'm here to help get that right. H1B visa issued November 2024, available for immediate transfer.

SKILLS

Content Design: interface copy, onboarding flows, error messages, tooltips, voice and tone systems, terminology standards, fallback state, accessibility (ADA/WCAG), A/B testing, content research

Content Strategy: editorial calendar management, social media & web strategy, long-form content, email campaigns, SEO optimization, compliance content, content style guides, localization

Tools: Figma, Usertesting, ChatGPT, Claude, Cursor, Lovable, Jira, Confluence, Ditto, Notion

EXPERIENCE

Remitly, Seattle, *Content Designer,* Oct 2025 – Apr 2026

- Designed and launched Remitly's first AI-powered cross-border money transfer experience inside ChatGPT: SEO-based intent mapping, response framework, and logic tree that guided users through high-stakes financial decisions with trust.
- Built Remitly's first WhatsApp agentic experience: conversational architecture including confirmation states, error messages and fallback messages for English and Spanish.
- Developed ContentGPT, an internal AI tool trained on Remitly's voice, tone, and content guardrails enabling designers, PMs, and engineers to generate on-brand product copy consistently at scale.
- Owned compliance and identity content, writing scam prevention messaging, identity verification flows, and regulatory copy that made complex legal requirements feel human in high-stakes moments.

BOLD, Los Angeles, *UX Writer,* Aug 2021 – Mar 2025

- Owned end-to-end UX writing for ResumeNow and eCommerce products as the embedded content designer for a 21-person cross-functional product team, 30M+ annual users.
- Built content style guides for 3 product portals; drove a 4.8% CVR increase ($1.5M annualized revenue) and a 3.5% CVR lift from the AI resume coach I designed from scratch.
- Localized product content for 12+ locales and built ADA-compliant voice, tone, and terminology standards used across design, engineering, marketing, and localization.

Viterbi Career Connections, Los Angeles, *UX Strategist,* Nov 2020 – May 2021

- Wrote help center articles and website content for virtual career events, driving a 2x increase in event attendance.
- Conducted website redesign and user research testing covering user flows, push notifications, error states, and tooltips.

Red Cup Agency, Los Angeles, *Podcast Content Strategist,* Jan 2021 – May 2021

- Built grant proposals and content strategy for BIPOC culinary stories featured in the newest season of Future of Food.
- Conducted social listening and guerrilla interviews to map audience needs and content gaps; rebuilt use cases, user flows, and information architecture from findings.

Annenberg Inclusion Initiative (USC), Los Angeles, *Research Assistant,* Nov 2019 – Sep 2020

- Led end-to-end research project on mental health representation in film and television as team lead with Initiative Researchers; synthesized findings into a final report showing 52% of films and 26% of TV series in the sample featured no characters with mental health challenges.
- CITI certified in Research with Human Subjects; applied ethical standards to data collection, qualitative coding, and written analysis across the full research lifecycle.

DDB Group / Omnicom, India, *Content Strategist,* Jan 2018 – Jul 2019

- Developed 10+ regionally localized digital campaigns for major brands including Van Heusen, Britannia, and Tanishq, increasing Instagram followers 2x and Twitter engagement 64% within 6 months.
- Ran A/B tests on copy and messaging across multiple client campaigns; synthesized audience research and performance data to produce accurate, editorially sound content for complex subject matter and diverse audiences.
- Built SEO-informed content strategies for Van Heusen, Puma, Tanishq, and TATA Tea; used keyword research and search intent analysis to shape campaign briefs and drive organic discoverability across web and social.

DVio Digital, India, *Sr. Social Media Manager,* Jan 2016 – Jun 2017

- Led content strategy and execution for Star World streaming service and W for Woman fashion brand; created blog content, social posts, and website copy daily.
